## BOOK BINDING.

I WOULD most respectfully suggest to my friends and those who have usually patronised me, that I still continue in the Binding line at the old stand called the East Side Bookstore and Bindery,—now called the East Side Book Bindery, at which place I shall stick out a short time, and shall be most extremely happy to see my old friends and customers bringing in their Periodicals, Music, &c., to be bound, which shall be done in a neat and faithful manner and as cheap as any other binder in Bangor, if it is 12½ cts per vol.

P. S. Prices to correspond with the times, and I defy competition. Come out with your prices! Specimens of binding can be seen at my Bindery. Orders from the country punctually attended to.

☞ My friends and the public generally will please receive my sincere thanks for their patronage during my sojourn in this city.

Yours Respectfully,

jy 31 W. F. STANWOOD.

## Teacher Wanted.

ANY teacher who can give good evidence of success in his profession, and who wishes to obtain an experimental knowledge of Natural Sciences, where he can have the advantage of Practical Analysis in the Laboratory, the use of Cabinets, and frequent excursions, under the direction of an experienced teacher, and paying his expenses by assisting in the School, can hear of a rare chance by making immediate application to

# COOKING STOVE,

**The Greatest Invention of the Age.**

## A New Pattern for 1849.

AMONG a host of competitors, THIS STOVE, for its superior advantages, took the first premium at the American institute, city of New York; at the Hartford County Fair Connecticut; at the Worcester County Fair, Massachusetts; and Franklin Institute, Philadelphia.

The very important improvement in this Stove is the patent *Broiling Chamber*, (see cut) by which steak can be cooked to perfection in from four to six minutes, retaining its juices, and giving steaks the same flavor and delicate savor as the best charcoal broil, (being equally well) adapted to toasting, roasting or baking, with the draft to the fire-arch passing through the broil ing chamber, and effectually carrying off the vapor usually arises from broiling. The broiling department is always ready, it requires no more of the same fire required for other purposes, and not interfering with any other part of the cooking.

The oven being the entire width, and passing directly around the oven, applies the heat to all parts alike. The oven for Baking is not equalled by any Stove in use. *Warranted as above for the city trade.*

## *THE BEST STOVE NOW IN USE.*

## THE BAY STATE

# COOKING STOVE,

Is unsurpassed by any other Stove now in the Market, being fitted for wood or coal, and is offered to the public as defying all competition

THIS STOVE was patented in 1848, for wood, and in 1849 for coal, and has been pronounced by competent judges, the most beautiful and perfect in its appearance, and the best Cook Stove in the market. The castings are heavy, smooth and beautiful; the joints are fitted with great perfection; the ovens are very large, and very nearly square, and will take in four middling sized pie plates. The Stove is so arranged that the wood lays and burns upon the ashes, instead of a grate, by which means the fire can be preserved for a long time; and as the oven projects under the fire-chamber, the fire and hot ashes produce a beautiful heat over the front of the oven, and causes the whole oven to heat equally. It has a beautiful apparatus for toast ng and broiling, by which means all the smoke is taken off into the stove pipe.

The Coal Stove has a cylindroidal, or oval cylinder, lined with soap-stone, or fire brick, and confessedly the best form of fire chamber in which to burn coal.

So confident is the subscriber, in the superiority of the above Stoves over all others in the market, that he will, after a fair trial of thirty days, refund the money and all expenses, if it does not meet the expectations of the purchaser.

The large st best selected, and most desirable Stock of Air Tight, Cooking, Office, and Parlor Stoves, in the market at Wholesale and Retail. Also, Cooking Ranges and Hot Air Furnaces, at prices to suit the times.

On hand, as usual, a large assortment of LEAD PIPE, CASTINGS, COPPER and TIN WARE, and all other articles usually found in establishments of the kind.

N. B. COPPER, SHEET IRON and TIN WARE manufactured, as above, and by the best of workmen.

Orders gratefully received and promptly Executed.

**Holden's Alterative and TONIC MIXTURE,**

IS the best combination known for changing the unhealthy secretions of the Stomach, and giving strength to that organ, and for removing many troubles which are often attributed to impurity of the blood.

Its action is that of a mild Alterative and Tonic, restoring health and strength often without producing any sensible evacuation, and without leaving behind any unpleasant effect on the constitution.

By its use the appetite becomes regular and good, digestion perfect, sick head-ache and many nervous disturbances growing out of imperfect digestion are generally cured: persons of debilitated constitutions become healthy and strong by its use.

By reason of the sympathy between the stomach and the skin, many diseases of the latter grow out of a morbid action of the former, even when the ordinary symptoms of Dyspepsia are wanting and are cured by this medicine.

Many troubles of children, supposed to arise from worms, are caused by a deranged state of the stomach, and are removed by its use. Persons both adults and children left feeble by protracted illness on the same principle are restored to health and vigor by taking it.

It contains no poisonous ingredient, and cannot in any case do harm.

**Home Testimony.**

We, the undersigned, have ourselves, or in our families, used Holden's Alterative and Tonic Mixture and are satisfied it is a very valuable preparation for the cases for which it is recommended:

I have sold a large number of Holden's Alterative and Tonic Mixture the past year in this city, and have found it to give more general satisfaction than any article I have sold for the purpose for which it is recommended, and have received many verbal assurances of its extraordinary efficacy from persons whom I feel confident could not be deceived. **L. R. PEARSON'S CARMINATIVE BALSAM.**

**Great Cholera Preventive.**

THIS article should be in the possession of every person travelling. It has never been known to fail of producing the speediest results in cases of Cholera Morbus, Diarrhœa, &c., and has during the prevalence of the CHOLERA in this country, been performing wonderful Cures,—though it is recommended more particularly as a PREVENTIVE, but is useful in any stage of the complaint. Taken immediately upon the appearance of the Diarrhœa, which is a premonitory symptom of Cholera—an attack of this fearful and fatal disease may be prevented. In Cholera Morbus and Summer Complaints of children, it has no equal. Dr. P. has made use of this remedy in his practice for near 10 years, with the most remarkable success. Price only 25 cents per bottle.

It is decidedly the most beneficial remedy for the cure of Dysentery, Cholera Morbus and Summer Complaint, that is known to man. Parents will find it the best medicine that can be used for young children and infants. And every person who is travelling in the summer months should not be without a bottle of it in their possession; as it is an infallible remedy against the change produced in the system by drinking bad water.

We annex the following certificate of Mrs. A. M. Sanford, of New York, in reference to the Carminative Balsam. We might add a long list, but consider this sufficient.

This is to certify that I have used Dr. Pearson's Carminative Balsam, and confidently believe it to be the best medicine that can be used for the various diseases for which it is recommended it to all ladies who are travelling in the summer months, and mothers for the fretting and crying of infants for which it is a certain cure.

**Important Discovery**

GRAY HAIR can be restored to its original color, whether Auburn, Brown or Black; Sandy, Light or Red Hair can be matched with any darker shade, surpassing in beauty even the most natural locks, retaining the gloss and softness of the original Hair, by using O. M. Hallard's

**Permanent Liquid Hair Dye,**

Of one preparation, which is entirely different from all other preparations of Hair Dye now before the public. Is free from all injurious properties, which can be tested by taking a lock of the finest and most delicate Hair of an infant, and color it with the Dye, which will not impair its gloss or its texture in the slightest degree, which is the best evidence which can be given that it is not injurious. On the contrary, it improves the lustre of the Hair, promotes its growth, and prevents it from falling out, and unlike other preparations, after the Hair is colored and dry, will not crock, fade, or wash out.

In short, from its peculiar delicacy, softness, and easy application, it is worthy the attention of all who may wish to improve the color of the Hair, as it will make any shade, from a white to a jet black. It is now used to an quaccountable extent, by persons who have prematurely turned grey, and others whose Hair is of no desirable color, which they restore or exchange for a beautiful Auburn, brown or Black, without any additional preparation or the slightest trouble.

AGENCY FOR BUSINESS

**With U. S. Patent Office,**

*WASHINGTON.*

**NO. 22 STATE STREET, BOSTON.**

IN 1840 the subscriber was appointed by the Commissioner of Patents, Agent of the U. S. Patent Office, in accordance with the 10th Sec. of Act of '37.

Having relinquished the Agency for the transmission of Models, and adopted a more expeditious mode of sending them to the Patent Office, *whereby a Patent may be procured about six weeks earlier*, he continues to forward them free of expense—to prepare Caveats, Specifications, Assignments, and all the necessary Papers inc. Drawings for Patents; and to render advice on legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. They also have the advantage of *verbally* explaining their inventions, and of consulting in respect to them; *matters, in general, of paramount importance in order to obtain correct specifications and claims.* The experience of *sixteen* year's practice, an extensive collection of rare works, decisions, &c. on mechanical subjects, the Patent Laws, and patents of different countries, collected at much expense during the long time this office has been established, together with accounts here kept of inventions patented at Washington, enable the subscriber to afford to inventors, desirous of procuring Patents, assistance, and information which in other respects might be difficult of attainment.

R. H. EDDY, Solicitor of Patents.

WASHINGTON, JULY 21, 1849.—During the time I occupied the Office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. ## Penobscot County Teachers' Institute.

The Teachers' Institute for the county of Penobscot closed its annual session of ten days in this city on Friday last, under the direction of David Worcester, Esq. member of the Board of Education. The exercises were conducted by Mr W. B. Fowle of Boston; Dr G S. Rawson of Feltonville, Mass., and the singing by Mr E W Messer. These gentlemen gave themselves heartily to the work. Mr Fowle is a complete encyclopedia of knowledge and experience as a teacher, is ever ready in the elucidation of principles and facile in adapting himself to the wants of his pupils and ready in every variety of expedient. Under his direction many pages of large experience and profound suggestion have been opened to the Institute. He has in all his exercises wisely begun at the beginning, and thus enabled to test the ability of his pupils to teach the youth of our county as well as to furnish them with the means of qualifying themselves and of aiding others.

Dr Rawson is a ready and accomplished lecturer and teacher, and devoted himself mainly to Physiology and to Arithmetic.

Mr Messer gave interest to the exercises by the introduction of Musical Geography as well as by the singing adapted to the common schools.

We feel assured that these Institutes are doing an important work for the cause of Education in our County and State. They bring teachers under the best of influences, showing them the vast importance of their work, the need of thorough preparation, and the means of accomplishing the one and acquiring the other. These Institutes if kept up to their high mission, cannot fail to afford a noble harvest to our State.

Soon after the organization of the Institute for this county, the present year, we offered to Mr Council Greeley, the Secretary, the use of one column each day, of our paper, for the purpose of laying before the public a record of the proceedings and the announcement of exercises for the day following. The offer was readily accepted. The reports came in, mingled, not only with the opinions of the writer, but also with fault finding, diminutive punning, and other expressions of dissatisfaction of the teachers. These reports attracted attention and we were appealed to by several of our citizens not connected in any way with the Institute, to know what it could mean and why we should admit such matter to our columns. We stated to them the position in which we were then placed and felt an unwillingness to interfere with what was furnished as an official report. So we allowed the matter to go on, even to the recommendation of the report of proceedings in the Jeffersonian and a bald and wholesale puff of the editor of that paper! This explanation is due to our readers generally. We regret that the necessity of making it, has occurred.

The reports in many respects appear really ridiculous as they labor to make it appear that the teachers had mistaken their office and were missing their mark. Sometimes it seems as though the good digestion of the writer's stomach impelled to humor which the brain failed in executing. At other times the attempt to be witty resulted in what Carlyle calls a snort, about half way between wit and humor, and which so particularly distinguishes the editor of the Jeffersonian as to make it seem like his suggestion. However it might have been as to the form of the matter, the origin of the spirit of it, may doubtless be found in the fact that certain nice men in this county have determined to make this matter of educational movement a hobby for their special riding. They came to the Institute determined to have their way or to breed disturbance, and the reports for several days seem to have been framed with an eye to the leadership of a guerrilla party in the Institute. The reports were not popular anywhere out of the charmed circle, on account of the lurking flings they contained.

The remarks of Mr Worcester, at the close of the Institute referred to the fact of dissatisfaction and to some of the misapprehensions and other causes. We shall publish these remarks and thus lay the matter before our readers.

There are some things connected with the educational movement in this State which we cannot but regret and condemn. We have hoped so much from the movement that we feel a great reluctance to refer to any point not of a cheering character, nor will we now do so farther than to utter a word of warning to all disposed to make this movement, a personal, a sectarian, or a political hobby. Let the educational interests of Maine go on without taint or hindrance from any of these. Let men be honest and philanthropic in their labors in the cause rather than scheming and selfish. This much is certain, that unless an honorable course, like this, is taken, the present arrangements will not continue and the machinery will be thrown out of gear, and the State withdraw its fostering hand.

☞ We have received from Messrs. G. R. Smith & Co a copy of the Unitarian Congregational Register for the year 1850, published in Boston by Wm Crosby and H P Nichols.

This work though admirable adapted to the clergy and members of the Unitarian denomination, has been continued for several years at a loss to the publishers. They have made it what it ought to be and now ask a fair support or will abandon its publication. It contains all the usual astronomical and calender calculations and tables—a great amount of statistical and denominational facts; and several pages of excellent reading matter. It is a thick neat pamphlet and is worthy of a generous support.

☞ There is to be some fun at Calais, as much as that at least, for the editor of the Advertiser offers his services in conjunction with the other duly elected Hog Reaves of that town, (those married the previous year being chosen to that office to make a grand haul of all the hogs at large in that town for the purpose of pounding and unpounding them and out of the fees get up a social official supper.

THE HORTICULTURIST, November 1849.

We have received and examined this number with both pleasure and profit. It stands at the head of all works on rural matters particularly in useful and ornamental gardening and fruit raising and rural architecture.

The leading article, 'How to enrich the soil.' is worth to any man cultivating a garden more than the annual subscription price. We have neither the time or the space for a review of this number and can only call attention to the table of contents as follows:—

How to enrich the Soil.
Transplanting on the Unbroken Prairie Sod, &c.
The Culture of the Dahlia.
Invisible Iron Fences.
Description of the Madison Plum.
Random Notes on Horticulture.
The Camellia Japonica.
The Diana Grape.

## Supreme Judicial Court.

The court was engaged on Wednesday and Thursday last in the trial of Andrew Cole of Glenburn, for arson, for firing the house of Harvey Jameson in Glenburn, in the night time in July last. Present Ch. Justice Shepley, and Justices Tenney and Wells. The Jury, after a short absence, returned a verdict of *not guilty*.

On Friday the court proceeded with the trial of Joseph Mitchell, an Indian, for the murder of his father in Dixmont last winter. The case was submitted to the Jury at about 7 o'clock on Saturday evening. At about 9 o'clock the same evening they returned a verdict of *guilty of manslaughter*. The court thereupon sentenced him to imprisonment to hard labor in the State Prison for the term of seven years.

Both persons were defended by A. G. Jewett and Abner Knowles, Esqrs. Atty. Gen. Tallman, and Co. Atty. Waterhouse appeared for the prosecution.

The legacy of the Mexican war debt, of fifteen or twenty millions, announced semi-officially as what our government in its expenditures exceeds its income, is but a partial installment of the legacies which will be constantly coming from that source. The applications for pensions, and for losses of horses and other property, are almost innumerable, and when they will end no man can tell. For the 'glory' of war we must thus expect to pay; but when we reflect upon its cost, glory has severe drawbacks.

☞ The Gospel Banner says it will be a sight worth seeing to visit Washington this winter, and see the five following men sitting together in their seats in the United States Senate—Daniel Webster, Thomas H. Benton, Henry Clay, John C. Calhoun, and Lewis Cass—five such men no Parliament or body of lawgivers in the world can boast of—probably it will be a century before such a sight can be witnessed again.

☞ Many of the early spring flowers have within a few days appeared in blossom. The weather, yesterday, was bright, warm and lovely. In Portland, the Advertiser says, that a second crop of roses have appeared, and the buds of several trees swollen, so much so, as seriously to endanger the next fruit crop.

☞ An English Journal of the 3rd states that Kossuth and his comrades were expected to arrive at Southampton by the next steamer from Constantinople. Great enthusiasm prevails at the place of his expected arrival, and the inhabitants are determined to give him a reception worthy of his name and his deeds.

The wife of Hon. L. C. Levin, member of Congress, from Penn., is now on trial in the county court in Baltimore, for cowhiding, with the aid of her footman, a young man, who had the impudence to look into her ladyship's carriage, in which she was riding.

☞ The proposed lecture by Mr Webb before the Mechanics' Association on Friday evening was postponed, on account of the weather to next Friday evening. The members of the association will have a rare treat in this lecture.

It is said that emigration from Germany is still going on to an enormous extent. During the present year upwards of 57,000 persons have embarked from Bremen alone, principally for the United States.

☞ We learn that the watch of Mr. Cochran, which was stolen from his house, has been found by a boy, in a field back of Thomas' Hill, and that his pocket book has been picked up from the river.

## Washington Gossip.

Correspondence of the Baltimore Sun.

WASHINGTON, November 21, 1849.

*The French Difficulty Settled—Reception of Mr. Rives—The Slave Question—Col. Webb's Appointment—France, &c.*

The difficulty with France is as good as settled. Louis Napoleon is on excellent terms with Mr. Rives, with whom he has even conferred as to the Americans in Paris, whom it would be proper to invite to his entertainments.

The correspondence between Senator Foote and Mr. Clingman, published in yesterday's Intelligencer, has created a deep impression, which, I trust, will not be without its effect on the sober-minded men of the Union. It is true that the slave question should be taken out of the political arena and disposed of in a summary manner; but I am afraid this will not be done without a struggle.

It is whispered that Col. Webb's appointment to Austria, has been reconsidered in the Cabinet; but I still believe that Mr. Webb will receive the Chargeship, which is shortly to be changed into a full mission.

## Cholera Again.

*To the Editor of the Whig and Courier:*

In the close of my communication in the Whig of the 13th inst, I stated that 'I thought it of the highest importance to the public, to have all the facts relating to the Cholera and its treatment laid open before them;' and it has been a matter of astonishment to many, that such silence has been observed on a subject of so much interest.

We see it publicly stated of the cities and towns visited by the destroyer, that so many were attacked and so many survived, that such a per cent were cured by Allopaths, so many by Homœopaths, &c, but nothing of that kind, I believe, has been put before the public here; and why is it? There has been every facility for getting at the facts in the case; the superintending Physician had every thing provided by the City Government to make his path smooth and clear; in fact every thing called for was given, to the tune of $5000, and now what has been the benefit, what the result? What have we to strengthen and encourage us to meet another visit of this 'pestilence that walketh at noon-day." Have the experiments made in this city satisfied the medical faculty that Cholera can be cured? If so, which treatment has been the most successful? Which next? What effect had *hot baths and ice water alone?* What hot baths and Ice-water, added to it Ether and Capsicum? What laudanum and brandy? What cayenne and lobelia, &c. &c.? If the Cholera attacks me or mine shall I send for an Allopath, a Homœopath, a Root Crop, or no one?

These, Mr. Editor, are important questions, questions that are asked every day, questions that demand answering! And why are they not answered?

Had I been aware that this unaccountable silence would have been observed, I should have taken some minutes of facts while at the hospital; but I saw others attending to that business, and as they keep back these facts, I will state some things from memory as a dernier resort.

The aggregate number of those brought into the hospital I cannot state, but will set it at 60, more or less; in regard to my present purpose it matters not. Out of this number I know of but 12 that went out alive! 7 of this number no physician of any skill would risk his reputation in stating them to be Cholera cases *in any stage*. 3 of this last number were attended by Allopaths, 2 by Dr. Jacobs, one by no physician, and the 7th run away before the doctors had a chance at him. The remaining 5 were attended by Dr. Jacobs. Now if the aggregate is correct, this leaves 38 who died; of this number two were prescribed for under the Thomsonian system by one of the nurses, Dr. Jacobs knowing of it, one by Dr. Mills, and one by Dr. Jacobs, leaving 34 who were attended by Allopaths!

From the conclusion arrived at from these figures I hardly think I should put myself to a vast deal of trouble to prove that I was the sole superintendent. I think I should not object to a colleague or two to share the glory! Of the 12 who went out alive one only went in the first week.

Now in regard to the above facts I challenge refutation in every point except the whole number admitted, (this only will effect the number who died, making it either more or less.) I had as good an opportunity of getting at these facts as any one at the hospital, and hold myself in readiness to give the names of the patients cured, and also to make good by proof in abundance the facts stated above.

It is too late in the day to talk of "taking no notice of rumors concerning the Cholera and its treatment considering *the source whence they originate*." The majority of the people are getting to believe that it is possible for a man to judge of facts under his own eye, although he may not be provided with a piece of paper with a big seal attached. This might have done when the sciences were confined to the priesthood, but now the sciences are being diffused among the people, and that word "*mystery*" with all its Latin accompaniaments is being torn from the science of healing, and the masses are plucking leaves from the "tree of life which is for the healing of the nations," to the terror and dismay of those not holding the interests of humanity paramount to their own sordid interests, conservatism and bigotry.

JOHN HARDY.

Bangor, Nov. 26, 1849.

☞ We copy from the Portland Argus, the following notice of the enterprise, now on foot, for a river railroad between this city and Oldtown:—

BANGOR—ITS POLICY AND PROSPECTS.—While many places in Maine have been running into all sorts of Railroad projects, some well advised, and others preposterous enough, our sister city of Bangor has been a silent, but not unobservant looker-on. Four years ago, our people generally heard little about Railroads, and knew less. The enterprising Bangoreans had, it is true, prior to that, got up *one* project and carried it out, and learnt something. This will account, perhaps, in some degree, for their keeping themselves cool in the matter, when their neighbors of Kennebec were up to fever heat. True enough, that Orono Railway was a damper. But the business men of our sister city are too enterprising, and too intelligent, to long overlook, or neglect the advantages of their position, and the means of making them available. Their recent movement, in having a thorough scientific survey made for a Railroad route from Bangor, the head of navigation on the Penobscot from the sea, to Oldtown, the head of the last succession of falls on that river, passing in the immediate vicinity of the numerous water privileges and mills between the two places, is not a waking up from a state of indifference, as some would represent it to be. On the contrary, it is the result of careful and mature consideration. The very character of the movement shows, that it is the work of 'business men,' and not of over-zealous 'Railroad talkers.' It looks to trade, to commerce, to business, to opening the interior, and enlarging the sphere of mercantile and manufacturing operations; and not to the devising of ways and means '*how to get to Boston*.' Bangor owns her ships. She has her foreign and coasting trade. She has the facilities and accommodation of steamboat navigation. She deals largely in lumber. She furnishes supplies to her lumber and material men. Her ships and coasting vessels require cargoes. Her merchants, traders and mechanics require business. The business men of Bangor have the discernment to understand that the very life of the place, as a place of business, is, primarily, its connection with the interior. Hence, we believe, the movement we speak of. We add with great sincerity, '*Go on, gentlemen, and prosper*.' Every one, who knows anything of the noble valley of Penobscot, and the peculiar position of Bangor, must see, that an enviable destiny awaits her, if her men of business, and people generally, are true to themselves and their own destiny.

ARRIVAL OF THE STEAMSHIP

## CALEDONIA
## BOSTON.

The Steamship Caledonia arrived at Boston about 1 o'clock on Saturday evening, bringing news from England up to date Nov. 10.

ENGLAND.

Cotton has been active with an advance of half a quarter of a penny per pound on American whilst very full rates have been paid for other.

No important improvement in grain.

Sir Henry Bulwer, the new Envoy to the U. S. has sailed from Portsmouth in the Hecio steamer sloop for the scene of his diplomatic labors.

The Queen has approved of Mr Benj. Hammatt Norton, as Consul at Pictou, Nova Scotia for the United States of America.

Nothing of importance from France. The message of the President was received favorably in the departments and the working population of Faubourgs.

AUSTRIA AND HUNGARY.

Thirty-four fresh condemnations had been pronounced in Gallicia. Sentences varying from confinement with hard labor for 4 years down to two months.

The Bohemian papers publish an interesting letter which the late Count Louis Batthyany addressed to the Hungarian parliament on the 2nd of Oct, 1848, which expresses in the strongest terms the remarns abhorance of the murder of the Count Lamberg. He has resigned his seat as member of the Hungarian Parliament and offers as minister. The Austrian government has recognized the Bey of Tunis.

The Austrian official prints portray the sufferings of the refugees at Widdin as being very great, and state that from fear of being obliged to embrace Mahomedanism a great number of them desired to return to their own country.—From 2000 to 3000 had already returned and were to enter the Austrian service. Gen. Bem and Guyon were using every exertion to prevent others from following their example.

Another execution had taken place at Arad, Louis Kanshirsky, of Sacephalon, was shot there on the 25th ult, his crime not stated.—Their entire number of renegades is now reported at 120, principally officers. Bem denies to Kossuth that he has made a formal profession of Islamism.

Nothing of interest from other parts of Europe.

☞ The Calais Journal pronounces the story published in the Augusta Banner, that a farmer in Lubec found on his farm when ploughing a box containing $96,000, all humbug.

### 'Better Fed than Taught.'

BY ELIZA COOK.

Let him look about who wanders,
And he'll surely find,
When he notes where Fortune squanders,
That she must be blind.
Gilded ignorance will jostle
Poor wit from the wall;
While brute Wealth pursues its wassail
Worth waits in the hall;
And when such strange things confound us,
Well may come the thought,
Oh! how many are there round us,
"Better fed than taught!"

When we see a stately madam,
In some lofty place,
Proud as any child of Adam,
Of her worldly grace,—
When we hear her lips inveighing,
Bitterly and long,
Against some lowly sister, straying
In the path of wrong,—
When she breathes the loud decrying,
As no Christian ought,—
Charity keeps gently sighing,
"Better fed than taught!"

When we find a Priest, who groweth,
Greater every year,—
Taking care that Labor soweth,
When 'tis in the ear,—
When we see his heart get thinner
As his tithes increase,
Snatching from the helpless sinner
All he can of fleece,—
When we find such saints defaming
Creeds with mercy fraught,—
Tell me who can help exclaiming,
"Better fed than taught!"

When we see a young man leaning
Idly on his gold,
Large in speech, but small in meaning,
Out of danger bold,—
When we see him rude to Weakness,
Insolent to Age,
Trampling on the words of Meekness,
With a braggart's rage,—
When we note the revel vision
Of his brain distraught,—
Wisdom sneers in cool derision,
"Better fed than taught."

When some little miss or master,
Fresh from desk and form,
Manages to spread disaster
In a household storm,—
When they cry for "moons" above them,
And for "chimney bricks,"—
When they cling to those who love them,
With most filial kicks,
Let us brand such olive blossoms
As wise people ought,
And hang this label on their bosoms,
"Better fed than taught."

Good sooth! we must mend our manners,
One and all and each,
Or Shame will leap and plant her banners
In some moral breach,
When Prosperity's broad table
Yields as all we ask,
'Tis to make us strong and able
For some duty-task;
Let us feast, but let us render
Goodly deed and thought,
Lest our lives bear this addenda,
"Better fed than taught."

## LIVER COMPLAINT AND DISEASE OF THE LUNGS.

It will be perceived that a Methodist Minister vouches for the truth of this letter. The documents may be seen at the office if required.

DR. S. P. TOWNSEND:

Dear Sir—Although you have numerous certificates attesting the efficacy and goodness of your Sarsaparilla; notwithstanding, I conceive it to be my duty, both to yourself, to the suffering and afflicted, that I may be amongst the many who can in truth say that I have been very much benefitted by the use of your medicine. I have been afflicted with the Liver Complaint, with an affection of the Lungs, and a general debility for six years and more. I have taken many preparations of medicine, but received no benefit. I have for about five months been failing very fast, gave up all hopes, and thought I must die, when hearing of your medicine, through your Circular which was left at my residence for perusal, was induced to try it, have now taken two bottles, and have been entirely cured, I believe. ### Wilde's Salamander Safes.

The Following Letter from the Superintendent of the Maine Telegraph Company is another proof of the superiority of JOHN E WILDER'S Safe over all others —

Bangor, Oct 21, 1849

*John E Wilder Esq* —

Dear Sir—The Safe I purchased of you was exposed to a great degree of heat at the burning of the Telegraph Office, in this city It was in the fire six hours the books and papers were uninjured, and the damage to the Safe very slight, although it fell from the second story to the basement of the building The little repairs necessary to the Safe have been made, and we shall not need to return it It is still as good as new

Respectfully yours, JAS EDDY

### Patent Bedstead.

THE Subscribers have purchased the right of manufacturing and vending HINKLEY'S IMPROVED PATENT BEDSTEAD for the city of Bangor

This improvement is simple in its construction and consists in furnishing a substantial Bottom to Bedsteads, which shall be elastic and have all the advantages of a Slat, or Sacking Bedstead, while at the same time it serves to secure the posts and rails compactly together, without other aid It can be fitted to any Bedstead *old or new*, with much less time and labor than is required to put in a cord, and when fitted, gives *great strength* and support, and keeps the Bedstead in proper shape It cannot be doubted that this simple improvement, will, when known, take the place of every other method now in use We can confidently recommend the above improvement to our customers and to the public, as the cheapest most substantial and best Patent Bedstead *ever* invented

The Public are respectfully invited to call and see for themselves SHAW & MERRILL,

THE ASTOUNDING REVELATIONS that have been made during the past year of the efficacy and wonderful

**Healing Properties**

Of the greatest Medicine of Age,

*Stanton's External Remedy*

—CALLED—

# Hunt's Liniment,

Has astonished the world in the cure of numerous and most distressing cases that have baffled the skill of our most DISTINGUISHED PHYSICIANS and when they

**HAVE GIVEN UP**

Their patients as past the help of man HUNT'S LINIMENT has been applied, and the sufferer who has been given up to die, has been restored to

**PERFECT HEALTH,**

A LIFE SAVED.

*Most Wonderful Cure of a man 80 years of Age.*

In the month of November, 1846, I was attacked with inflammation in my great toe, which soon broke out in a running sore. Mortification ensued and the first joint of my toe came off. At this time I was under the care of the best physician in the county—every remedy had been tried but without any help. The agony of pain I endured no one can imagine, the disease ran up my leg to my thigh, and had become so bad that my physician despaired of ever being able to cure me, and after four month's confinement to my bed, finally told me I must prepare to die—that as soon as the warm weather set in my leg would mortify and death ensue. I gave up in despair. One of my friends brought me a bottle of HUNT'S LINIMENT which he said would relieve the pain. I applied it and the effect was wonderful, it seemed as if new life was put in me. In using one bottle the whole pain left me and two 50 cent bottles entirely cured me, to the astonishment of myself and the whole neighborhood. Hunt's Liniment saved my life. I am 80 years of age, and make this public that every human being may know the value of this great medicine.

*Extraordinary case of Hip and Spinal Disease*

SOMERS, WESTCHESTER Co., N. Y., Aug 27, 1848

Gent—It is with a sincere pleasure that I make known to you the great benefit I have derived from the use of Hunt's Liniment. About 6 years ago I was injured by a horse, in the HIP and SPINE so badly that I could not move without the aid of Crutches. I grew gradually worse for Four Years although under the care of two successful Physicians who finally gave up my case as hopeless. My Hip gathered and broke and continued a running sore, and I was suffering with such severe pain that I could not rest or sleep. At this stage of the disease I commenced using Hunt's Liniment which at once gave me relief. I used about 20 Bottles during the past year. The sore is entirely healed, I am free from pain, and only use a cane in walking. I think the use of your Liniment saved my Life and has made me comparatively a well man. My whole neighborhood can testify to my sufferings and the cure.

Yours truly
BARNABUS BEADLE

EVERGREEN FALLS VERMONT, March 19 1849

Sir—The demand for your Liniment has increased rapidly of late, it has been used with great success in SPINAL complaints. A neighbor of mine was completely disabled from pain in his back, and the use of a large bottle of Hunt's Liniment completely cured him and he is now in his usual health, this is only one of many cases that have been cured in this neighborhood.

Yours &c
S. DORNIN

BRIDGEPORT CONN August, 1848

Dear Sir—Please send me about the quantity of a gallon of Hunt's Liniment prepared by you. I have had reason to test its qualities in a case of Spinal Affection and much relief has been obtained from the application to the parts affected.

I consider it a very valuable article for the purpose recommended

# DR. SPEAR'S

SO MUCH CELEBRATED

# Indian Vegetable Medicines,

ARE Universally Acknowledged to be the Safest, Cheapest and Most Efficacious Remedies for the various Diseases of the human system ever offered to the public. They can be relied on with confidence to cure all curable cases. Their action is immediate and thorough, eradicating disease in its worst forms. Thousands who have been pronounced incurable by their Physicians, are alive to testify to the virtues of these extraordinary preparations, having been restored to sound health by their use

We will attach in a few of the principal Medicines and their uses, referring the reader after health to the 'FAMILY PHYSICIAN,' a work edited by Dr. A. S. Spear, where may be found a history and treatise on the origin and nature of the principal diseases which afflict humanity, directions how to preserve and restore health, together with some few hints from highly respectable persons, testifying to the healing virtues and urging their importance. This book can be obtained of Dr. Spear's Agents, free

BALM OF LIFE Nos. 1 & 2.—For Consumption, Dyspepsia, Indigestion, Liver Complaint, Debility, Nervous Affections, Phthisic, Asthma, Palpitation, Bronchitis &c

CATARRH SNUFF—For Consumption, Catarrh, Cough, Headache &c , this is a certain cure for Catarrh, and surpasses any other preparation for cleansing the head in cases of cold &c THE LIVER WORT PILLS have been for a long time considered a universal medicine. A trial of one box will satisfy the patient that they are the best purgative known—They remove the most severe colds, coughs, pains or fevers if taken in season. SCROFULA SYRUP—This is one of the most efficient agents in use for cleansing and purifying the blood. It removes every impurity from the system which that of a scrofulous or cancerous nature. It is a compound of a purely vegetable character. For efficacy and safety it cannot be surpassed. CHOLERA MORBUS AND DYSENTERY CORDIAL, if used according to directions, a cure is warranted in every case for which it is recommended. GERMAN LOTION—This is warranted to cure the Salt Rheum in its worst forms. TONIC CORDIAL is one of the most powerful tonics ever discovered. It is the best female medicine to be obtained. WOMAN'S FRIEND, for the falling of the womb. This is the only remedy before the public for this purpose. It obviates the necessity of resorting to instruments and is unquestionably a most certain remedy. EYE WATER—This is the best eye water now in use. GRAVEL MIXTURE—This will cure all cases of the gravel. For other remedies see 'Family Physician.'

All the ingredients of the above Medicines are furnished by Nature herself, and are combined in accordance with known principles now easily received as sound by all scientific Physicians

Their merits have been acknowledged by thousands. They have been tested and approved to be equal to the commendation claimed for them

If a fair trial fails to restore health, so confident is the proprietor of their efficacy, that the expense of any other means which do effect a cure will be paid, provided it does not exceed one hundred dollars

COMPOUND EXTRACT OF

# SARSAPARILLA,

*Wonder and Blessing of the Age*

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD

*This Extract is put up in Quart Bottles—it is six times cheaper pleasanter and warranted superior to any sold. It cures without vomiting purging sickening or debilitating the Patient*

The great beauty and superiority of this Sarsaparilla over all other medicine is, while it eradicates disease it invigorates the body. It is one of the very best

SPRING AND SUMMER MEDICINES

ever known it not only purifies the whole system and strengthens the person, but it creates new pure and rich blood, a power possessed by no other medicine. And in this lies the grand secret of its wonderful success. —It has performed within the last five years more than 15,000 cures of severe cases of disease, at least 15,000 were considered incurable. It has saved the lives of more than 3,000 children during the two past seasons

3,000 CASES OF GENERAL DEBILITY AND WANT OF NERVOUS ENERGY

Dr. Townsend's Sarsaparilla invigorates the whole system permanently. To those who have lost their muscular energy by the effect of medicine or indiscretion committed in youth, or the excessive indulgence of the passions, and brought on a general physical prostration of the nervous system, lassitude, want of ambition, fainting sensations, premature decay and decline, hastening toward that fatal disease, Consumption, can be entirely restored by this pleasant remedy. This Sarsaparilla is far superior to any

INVIGORATING CORDIAL,

as it renews and invigorates the system, gives activity to the limbs, and strength to the muscular system, in a most extraordinary degree

SPITTING BLOOD

*New York, April 28, 1847*

Dr. Townsend—I verily believe that your Sarsaparilla has been the means, through Providence, of saving my life. I have for several years had a bad cough. It became worse and worse. At last I raised large quantities of blood, had night sweats, and was greatly debilitated and reduced, and did not expect to live. I have only used your Sarsaparilla a short time, and there has a wonderful change been wrought in me. I am now able to walk all over the city. I raise no blood, and my cough has left me. You can well imagine that I am thankful for these results

Your obedient servant,
WM RUSSELL, 65 Catharine st.

RHEUMATISM

This is only one of more than four thousand cases of Rheumatism that Dr. Townsend's Sarsaparilla has cured. The most severe and chronic cases are weekly eradicated by its extraordinary virtues

James Cummings, Esq., one of the assistants in the Lunatic Asylum, Blackwell's Island, is the gentleman spoken of in the following letter

*Blackwell's Island, Sept. 14, 1847*

Dr. Townsend—Dear Sir: I have suffered terribly for nine years with the Rheumatism, considerable of the time I could not eat, sleep or walk. I had the most distressing pains and my limbs were terribly swollen. I have used four bottles of your Sarsaparilla, and they have done me more than one thousand dollars worth of good. I am so much better—indeed, I am entirely relieved. You are at liberty to use this for the benefit of the afflicted.

Yours respectfully,
JAMES CUMMINGS

FITS! FITS! FITS!

Dr. Townsend not having tested his Sarsaparilla in cases of Fits, of course never recommended it, and was surprised to receive the following from an intelligent and respectable Farmer in Westchester County

*Fordham, August 13, 1847*

Dr. Townsend—Dear Sir: I have a little girl, seven years of age who has been several years afflicted with Fits; we tried almost every thing for her, but without success, at last, although we could find no recommendation in your circulars for cases like hers, we thought, as she was in very delicate health, we would give her some of your Sarsaparilla, and are very glad we did, for it not only restored her strength, but she has had no return of the Fits, to our great pleasure and surprise. She is fast becoming rugged and hearty, for which we feel grateful

Yours respectfully,
JOHN BUTLER, Jr.

FEMALE MEDICINE

Dr Townsend's Sarsaparilla is a sovereign and speedy cure for Incipient Consumption, Barrenness, Prolapsus Uteri or Falling of the Womb, Costiveness, Piles, Leucorrhoea or Whites, obstructed or difficult Menstruation, Incontinence of Urine, or involuntary discharge thereof, and for the general prostration of the system—no matter whether the result of inherent cause, or causes, produced by irregularity, illness or accident. Nothing can be more surprising than its invigorating effects on the human frame. Persons all weakness and lassitude, from taking it, at once become robust and full of energy under its influence. It immediately counteracts the nervelessness of the female frame, which is the great cause of Barrenness. It will not be expected of us, in cases of so delicate a nature, to exhibit certificates of cures performed, but we can assure the afflicted, that hundreds of cases have been reported to us. Thousands of cases where families have been without children, after using a few bottles of this invaluable medicine, have been blessed with fine healthy offspring

TO MOTHERS AND MARRIED LADIES

This extract of Sarsaparilla has been expressly prepared in reference to female complaints. No female who has reason to suppose she is approaching that critical period, 'The turn of life,' should neglect to take it, as it is a certain preventive for any of the numerous and horrible diseases to which females are subject at this time of life. This period may be delayed for several years by using this medicine. Nor is it less valuable for those who are approaching womanhood, as it is calculated to assist nature by quickening the blood and invigorating the system. Indeed this medicine is invaluable for all the delicate diseases to which women are subject

It braces the whole system, renews permanently the natural energies—by removing the impurities of the body, not so far stimulating as to produce subsequent relaxation—which is the case of most medicines taken for female weakness and disease. By using a few bottles of this medicine, many severe and painful surgical operations may be prevented

GREAT BLESSING TO MOTHERS AND CHILDREN

It is the safest and most effectual medicine for purifying the system, and relieving the sufferings attendant upon child birth ever discovered. It strengthens both the mother and child, prevents pain and disease, increases and enriches the food—those who have used it think it is indispensable. It is highly useful both before and after confinement, as it prevents diseases attendant upon childbirth—in Costiveness, Cramps, Swelling of the Feet, Despondency, Heartburn, Vomiting, Pain in the Back and Loins, False Pains, Hemorrhage, and in regulating the secretions and equalizing the circulation it has no equal. The great beauty of this medicine is, it is always safe, and the most delicate use it most successfully, very few cases require any other medicine—in some a little Castor Oil or Magnesia is useful. Exercise in the open air, and light food with this medicine, will always ensure a safe and easy confinement

BEAUTY AND HEALTH

Cosmetics, Chalk, and a variety of preparations generally in use, when applied to the face very soon spoil it of its beauty. They close the pores of the skin, and check the circulation, which, when nature is not thwarted by disease or powder, or the skin inflamed by the alkalies used in soaps, beautifies its own production in the 'human face divine,' as well as in the garden of rich and delicately tinted and variegated flowers. A free, active and healthy circulation of the fluids or the coursing of the pure, rich blood to the extremities, is that which paints the countenance in the most exquisite beauty. It is that which imparts the indescribable shades and flashes of loveliness, that all admire but none can describe. This beauty is the offspring of nature—not of powder or soap. If there is not a free and healthy circulation, there is no beauty. If the lady is fair as driven snow, if she paint and use cosmetics, and the blood is thick, cold, and impure, she is not beautiful. If she be brown or yellow, and there is pure and active blood, it gives a rich bloom to the cheeks, and a brilliancy to their eyes, that is fascinating.

This is the reason why the southern, and especially the Spanish ladies, are so much admired. Ladies in the north who take but little exercise or are confined in close rooms, or have spoiled their complexion by the application of deleterious mixtures, if they wish to regain elasticity of step, buoyant spirits, sparkling eyes, and beautiful complexions, they should use Dr Townsend's Sarsaparilla. Thousands who have tried it are more than satisfied, are delighted. Ladies of every station crowd our office daily

NOTICE TO THE LADIES

Those that imitate Dr Townsend's Sarsaparilla have invariably called their stuff a great remedy for females, &c, &c, and have copied our bills and circulars which relate to the complaints of women, word for word—other men who put up medicine have, since the great success of Dr. Townsend's Sarsaparilla in complaints incident to females, recommended theirs, although previously they did not. A number of these Mixtures, Pills, &c, are injurious to females, as they aggravate disease, and undermine the constitution

SCROFULA CURED

This Certificate conclusively proves that this Sarsaparilla has perfect control over the most obstinate diseases of the blood. Three persons cured in one house unprecedented

THREE CHILDREN

Dr Townsend Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine—They were afflicted very severely with bad sores; have taken only four bottles; it took them away, for which I feel myself under great obligation.

Yours respectfully,
ISAAC W CRAIN 106 Wooster st

OPINIONS OF PHYSICIANS

Dr Townsend is almost daily receiving orders from physicians in different parts of the Union

This is to certify that we, the undersigned, Physicians of the City of Albany, have in numerous cases prescribed Dr. Townsend's Sarsaparilla and believe it to be one of the most valuable preparations of the Sarsaparilla in the market

## CAUTION.

Owing to the great success and immense sale of Dr Townsend's Sarsaparilla, a number of men who were formerly our Agents, have commenced making Sarsaparilla Extracts, Elixirs, Bitters, Extracts of Yellow Dock, &c. They generally put it up in the same shaped bottles, and some of them have stolen and copied our advertisements,—they are only worthless imitations, and should be avoided.

## FITS! FITS!!

HART'S VEGETABLE EXTRACT

Is the only remedy that can be relied on for the permanent cure of Spinal Complaints, Spasmodic Contractions, Irritation of the Nerves, Nervous or Sick Headache, Nervous Tremors, Neuralgic Affections, Apoplexy, Paralysis, General debility, Deficiency of Nervous and Physical Energy, and all Nervous Disorders, including the most dreadful of all diseases that ever afflict the human race

EPILEPTIC FITS,

or Falling Sickness, Hysterical Fits, Convulsions, Spasms, &c. Dr. Hart would impress it upon the minds of the afflicted that the Vegetable Extract is the only remedy ever discovered that can be relied on for the permanent cure of this most dreadful of all diseases. As its tendency is to insanity, madness and death, too most

SKILLFUL PHYSICIANS

of Europe as well as those of our own country, have pronounced Epilepsy incurable. And it has been so considered by many until this most important of all discoveries was made by Doctor S. Hart, nearly sixteen years since, during which time it has been performing some of the most

REMARKABLE CURES

upon record, and has acquired a reputation which time alone can afford. Physicians of undoubted skill and experience, ministers of various denominations, as well as hundreds of our eminent citizens all unite in recommending the use of it to be truly valuable medicine to their patients, charge, and friends, who are thus afflicted, as the only remedy

WE QUOTE THE LANGUAGE

used by those who have been cured by this valuable medicine. One says, "I have suffered beyond my power of description but now I rejoice in being fully restored to health and happiness." Another says, "I thank God I feel that I am a well man. I also feel it my duty to proclaim it to the ends of the earth, that those similarly afflicted may find relief." Another (who is an

EMINENT LAWYER,

and well known in this city, says "my son has been afflicted for years with Epilepsy, but is now enjoying good health from the Vegetable Extract. Its name, says he, 'should and ought to be sounded to the ends of the earth.'" Another says 'Language is entirely inadequate to express my gratitude to Dr Hart, for bringing to me the means, under the blessing of God, of restoring me to good health after having been afflicted with Epilepsy in its worst forms for more than nine years, and my morning and evening prayers shall continue to ascend to that God who has afflicted but to make me whole'

Mrs J Bradley 115 Orchard street, New York, states that she has been subject to Fits for many years, and has been restored to perfect health (after every other means had failed) by the use of the Vegetable Extract

Dr Charles A Brown of Dover Russell co, Alabama, who is one of the best Physicians in the State, says that he has been much benefitted by the use of the Vegetable Extract and that he unhesitatingly prescribes it in every case of Epilepsy which comes under his knowledge

Curtis G Bradbury, Esq formerly Postmaster at Lime Hills, Crawford Co, Pa, now living in Erie Co Pa states that for many years past he has been sore afflicted with Fits, and he is now happy to state that by having used of Dr Hart's Vegetable Extract, he has been so much improved that he hopes by Divine blessing to have no more Fits

Mr Stephen E Pratt, corner of Sixth Avenue and Twenty sixth Street, New York states that Mr Charles E Boughton, a member of his family, has been severely afflicted with Epileptic Fits for many years that he was obliged to relinquish his business. Having used Dr Hart's Vegetable Extract [says Mr P] he was soon restored to perfect health, and left this city for the State of Ohio to resume his business

Rev Mr Smith, Rector of St Peter's Church, Spotswood, New Jersey who has been afflicted with Epileptic Fits for more than forty years, states that he has used Dr Hart's Vegetable Extract, and his health is so much improved that he hopes by Divine blessing to have no more Fits

EPILEPTIC FITS,

For twenty seven years and six months, cured by the use of this truly wonderful medicine

Read the following remarkable case of the son of Wm Secor, Esq, of Philadelphia, affected with Epileptic Fits for twenty seven years and six months—After travelling through England, Scotland, Germany and France, consulting the most eminent physicians, and expending for medicine, medical treatment and advice three thousand dollars, returned with his son to this country in November last, without receiving any benefit whatever and was cured by using

HART'S VEGETABLE EXTRACT

I have spent over three thousand dollars for medicine and medical attendance. I was advised to take a tour to Europe with him which I did. I first visited England, I consulted the most eminent physicians there in respect to his case; they examined him and prescribed accordingly. I remained there three months without perceiving any change for the better, which cost me about two hundred and fifty dollars, pocketed by the physicians, and the most that I received was their opinion that my son's case was hopeless, and

POSITIVELY INCURABLE

I accordingly left England, travelled through Scotland, Germany and France and returned home in the month of November, with my son as far from being cured as when I left. I saw your advertisement in one of the New York papers, and concluded to try Hart's Vegetable Extract, seeing your statements and certificates of so many cures, some of twenty and thirty years standing, and I can assure you I am not sorry I did so, as by the use of Hart's Vegetable Extract alone he was restored to

PERFECT HEALTH

His reason, which was so far gone as to unfit him for business is entirely restored, with the prospect now before him of life, health and usefulness. He is now 28 years of age, and 27 years 6 months of this time he has been afflicted with the most dreadful of diseases, but thank God is now enjoying good health

Now, sir, faith without works I don't believe in — to say I shall be ever grateful to you is one thing, and I have enclose you one hundred dollars I have no doubt you will think this another and quite a different thing. The debt of gratitude I still owe you, but please accept this amount as interest on the debt in advance.

Yours, very respectfully,
(Signed) WILLIAM SECORE.

THE TIME IS NOT FAR DISTANT

When thousands who are now trembling under the hand of this dreadful disease, and fearing that every attack may prove fatal, will find permanent relief and be restored to new life, by using this celebrated medicine

Read the following letter from a Clergyman of Camden, Me , to the Editor of the GOSPEL BANNER —

# DOWN'S ELIXIR, CURE.

BR DREW—Being anxious to do good to my fellow beings, as I have means and opportunity, I wish to state, through the Banner, that my sickness last winter and spring, I received very great benefit from the use of N H DOWN'S ELIXIR

I had been troubled some weeks with a severe cold which so affected the vocal organs, that it was with great difficulty I discharged the duties of my office. My cold continued until I was completely prostrated by bleeding which created a dry, hard cough. My appetite failed my strength wasted, and my flesh disappeared. Seeing Wistar's Balsam of Wild Cherry recommended in the Banner I procured a bottle and commenced taking it, and continued its use until I had taken three bottles when I became satisfied that it contained opium, making a large amount of physic necessary, and also contracting the very organs that it should be relaxed. I used other kinds of patent medicines but with no good effect. Seven weeks I continued gradually to sink under my disease at the expiration of which time I was extremely weak, my skin dry and husky, and my feet and hands cold most of the time. I had a dull, heavy pain between my shoulders, and a distressing pain at the pit of my stomach. My tongue was coated with a thick, white fur bowels very irregular and costive, hectic fever night sweats, dry, hard cough, difficulty of breathing, and low spirits. My stomach at this time was so sore and weak, that it was with difficulty I could stand erect. This was my situation when I commenced the use of N H DOWN'S ELIXIR — And to my great joy, and the greater joy of my friends, I found that the use of it a few days had regulated my bowels, equalized the circulation and produced a healthy moisture upon the skin. I used three bottles in two weeks which entirely removed the disorders and gave me a good appetite, continued its use six weeks, using six bottles in which time I was able to resume my ministerial labors, and have never known it to fail of doing good where the directions were followed

I have given it to my children in colds, and in a case of measles and it has proved ALL IT IS recommended to be

I therefore cheerfully recommend N H DOWN'S VEGETABLE BALSAMIC ELIXIR to all who are afflicted with any of the diseases for which it is recommended.

Yours truly,
L TUTTLE.

Camden, August, 1849

*Facts deduced from the foregoing letter*

1st Down's Elixir is laxative—curing costiveness while other medicine increase that difficulty

2d It is perspirant It equalizes the circulation—restores a healthy moisture to the skin, and vigor and tone to the system

3d It removes soreness and weakness from the stomach—gives a good appetite and restores strength to the system

4th It cures colds—is an effectual remedy for the measles, and proves 'ALL IT IS RECOMMENDED TO BE'

It is sold by Druggists and dealers in medicine throughout the country, and at wholesale and retail at proprietor's prices by DAVID BUGBEE G W LADD, CURTIS & PERKINS, A P GUILD, WM MANN, T McFARLAND, Bangor, I. McKENNEY'S

# COSSACK SALVE!!

**An Invaluable Remedy**

FOR Fever Sores, Rheumatism Swelling of the Feet and Limbs, Swelling of the Tonsils or Sore Throat, Chronic Eruptions of the Skin, and all Scrofulous Diseases, Rigid Corns occasioned by Colds, or Strains Stiff Neck, Chilblains or Chapped hands, Sore or Inflamed Breasts, Weakness or Pains in the Stomach, Piles, Corns, Warts, and Common Sores and Cuts and Bruises of all kinds

In bringing this article before the Public, we are aware that we labor under no small disadvantage amidst the multitude of 'All-Healing Ointments' and 'Panaceas' that are now advertised as the "most effectual" and certain cures for all diseases and ills, to which man or animals are subject

A history of the Salve and the wonderful cures it has effected in the above complaints, will be found in a pamphlet accompanying each Box—reference to which is invited before purchasing

We would only add, that we have undertaken the task of manufacturing the above named Salve at no inconsiderable trouble and expense, not so much as a matter of speculation and pecuniary benefit as in compliance with the earnest and repeated solicitations of personal friends, and those who have experienced its wonderful medicinal and all healing properties

To say, indeed, that we do not expect to realize a handsome remuneration for our services, would be alike useless and untrue. But we flatter ourselves that if, forsooth, we are richly paid, and the article soon, very soon has an extensive sale—the Public are receiving a full and ample equivalent

As we have already intimated, we do not and shall not call to our aid the empty puffing of the Press, or the bought certificates of individuals and shall make use of them only so far as they have been or hereafter may be, entirely voluntary and unsolicited

## The Salve is now before the Public!

They, and they alone, will decide upon its real virtues and medicinal properties. To say less, were injustice to ourselves—to say more would be superfluous

Here are some of the many Certificates—

The subscriber was afflicted with a Fever Sore upon his leg for about six years, and in the winter of 1845 it commenced swelling from the ankle to the knee. After using many remedies without success I applied some Salve obtained of Mr A McKenny, and continued its application until I had used six bottles, which entirely cured me, and I have had no return of the disease since. I would also say that I know the above Salve to be a cure for Corns, one of my family having used it for this purpose with complete success

DANIEL SEAVEY

Dexter, (Maine) May , 1846

This certifies that one of my sons having been afflicted with a Fever Sore for more than a year, and having tried various means to effect a cure, without success which cost me about forty dollars, I bought 14 oz of JONATHAN McKENNEY'S SALVE, which effected an entire cure in less than two months

SIMEON MARSTON

BANGOR, June 5, 1846

Mr McKenney—In going into the woods in the autumn of 1845, with the charge of quite a number of men, for the winter lumbering operation, I was induced to take a few bottles of your Salve, it having been recommended to me as one of the best remedies for accidental Cuts and bruises, and I found indeed, to my great satisfaction, that it was an invaluable article. I also made application of it in cases of Cuts, Sprains and Bruises upon my cattle, and found it equally beneficial. It can truly be called the All Healing Salve

## NOTICE.

# BOOK BINDING.

I WOULD most respectfully suggest to my friends and those who have usually patronised me that I still continue in the Binding line at the old stand called the East Side Bookstore and Bindery —now called the East Side Book Bindery at which place I shall stick out a short time and shall be most extremely happy to see my old friends and customers bringing in their Periodicals Music &c, to be bound which shall be done in a neat and faithful manner and as cheap as any other binder in Bangor if it is [illegible]

P. S Prices to correspond with the times and I defy competition. Come out with your prices. Specimens of binding can be seen at my Bindery. Orders from the country punctually attended to

☞ My friends and the public generally will please receive my sincere thanks for their patronage during my sojourn in this city

Yours Respectfully

# HALLOWELL HOUSE,

*HALLOWELL MAINE*

THE subscriber respectfully announces to his friends and the public that he has leased this well known Hotel and has made many important improvements and repairs. The house has been newly furnished throughout in a manner that will compare with any other establishment on the Kennebec. It is his determination to make it one of the best resorts for the travelling public that can be found in this section of the country

Gentlemen with their families and members of the State Legislature will be furnished with superior accommodations. The proprietor hopes by personal politeness and attention to merit the support and confidence of the public. Connected with the House is a good Stable where careful and experienced Ostlers will always be in attendance
